Minhajul Islam

Full Stack Web Developer · Laravel, Next.js & TanStack Start

016411-02404 | nishatislam3108@gmail.com | Rampura, Dhaka | LinkedIn | GitHub | Portfolio

SUMMARY

Full-stack web developer with 1+ year of experience building production-ready applications using React, Next.js, Laravel, and TanStack Start. Skilled in designing scalable architectures, integrating REST APIs, and collaborating in teams. Passionate about clean code and performance optimisation.

EXPERIENCE

Junior Software Engineer Oct 2024 – Nov 2025

SoftBd LTD · Dhaka, Bangladesh

- Developed and maintained RESTful APIs using Laravel and MySQL
- Built responsive frontend components with React and Tailwind CSS, improving page load speed
- Collaborated in a 5-person agile team
- Integrated third-party services (OAuth Google Login, email notifications, S3 file upload) into existing Laravel applications

Tech: React, Next.js, Laravel, PHP, MySQL, Tailwind CSS, Docker

SKILLS

Languages: JavaScript, PHP, SQL

Frontend: React, Next.js (App Router), SolidJS, TanStack Router, Tailwind CSS, Zustand

Backend & APIs: Laravel, ElysiaJS, TanStack Start, REST API design

Database: PostgreSQL, MySQL, Prisma (ORM)

DevOps & tools: Git, Docker, Redis, Vite, Bun, Biome, Podman

PROJECTS

Credets — Encrypted Credential Vault Live

- Credential vault with AES encryption, CSRF protection, and session-based authentication and authorization
- Flexible credential inputs: single labels, key-value pairs, and rich text sections via a Tiptap editor
- Hierarchical types, multiple images, and thumbnails with S3 upload and infinite pagination
- Update, delete, draft, favorite, soft-delete, and tags per credential

Tech: Bun, PostgreSQL, TanStack Router, TypeScript, React, TanStack Form, TanStack Query, shadcn/ui, Zod, Supabase Storage, Podman

Freelocity — USA Client Project Live

- Two-sided marketplace where buyers hire freelancers for services, built solo for a USA-based client
- Gig listings with categories, tiered pricing packages, portfolio galleries, and search with slug-based routing
- Buyer journey: browse freelancers, real-time chat, secure checkout, order tracking, and delivery workflows
- Freelancer journey: service creation wizard, project applications, order delivery, reviews, and payout management

Tech: Laravel 12, React 19, Inertia.js, TypeScript, Tailwind CSS 4, MySQL, Sanctum, Zustand, Zod

Team-Docs — Collaborative Documentation Platform Live

- Documentation platform where teams write and share content with a Notion-style editor
- Role-based access (Admin and Super-Admin) for permission control
- Rich text editing with TipTap; authentication with NextAuth.js

Tech: Next.js 16 App Router, Prisma, PostgreSQL, NextAuth.js, TipTap, Tailwind CSS v4, Zustand, Docker

EDUCATION

Diploma in Computer Science 2021 – 2024

Feni Computer Institute, Feni · GPA 3.72 / 4.00
