## SUMMARY

Full Stack Developer with 4+ years of experience delivering SaaS, marketplace, and government-scale web applications. Hands-on Laravel 12/PHP experience building REST APIs, Sanctum authentication, MySQL schemas, payment workflows, and React/Inertia.js interfaces. My primary backend stack is Node.js (NestJS/Express), complemented by strong React/Next.js expertise and practical Laravel delivery. Experienced with third-party integrations, database optimization, debugging across the stack, code reviews, and Agile product delivery.

## EXPERIENCE

**Deputy Team Lead – Full Stack Developer** Jan 2025 – Present

**RadiusTheme · Dhaka, Bangladesh**

- Lead full-stack development of Radius Directory, a multi-tenant marketplace SaaS built with Next.js, Node.js, Prisma, and PostgreSQL.
- Design backend services and RESTful APIs across 59 database models and 30+ modules, including listings, memberships, orders, reporting, and page-building tools.
- Integrated Stripe, PayPal, SSLCommerz, Pusher, ImageKit, AWS S3/R2, Twilio, and Firebase into production workflows.
- Reduced database queries by 60% through Redis caching and improved drag-and-drop builder performance by 40%.
- Review code, mentor junior developers, debug cross-stack issues, and establish maintainable engineering standards.

**Tech:** Next.js, React, TypeScript, Node.js, Prisma, PostgreSQL, Redis, Tailwind CSS, Docker, GitHub Actions

**Software Engineer** May 2022 – Dec 2024

**Softbd LTD · Dhaka, Bangladesh**

- Built responsive React/Next.js interfaces and backend APIs for enterprise and large-scale government platforms.
- Developed modular services with NestJS, Express, TypeORM, MySQL, MongoDB, Oracle, Redis, and RabbitMQ.
- Improved page-load performance by 40% using SSR, code splitting, and SWR caching.
- Contributed to DLRMS workflows serving millions of land records and the National Portal Framework powering 54,000+ government websites.
- Collaborated with product, design, QA, and engineering teams to ship, review, and troubleshoot production features.

## SELECTED PROJECTS

### Freelocity — Laravel Freelance Marketplace

freelocity.bynarilab.com · Dec 2025 – May 2026

- Architected and delivered the platform end to end as a solo developer for a US client using Laravel 12, MySQL, Inertia.js, and React 19.
- Built REST APIs, Sanctum authentication, and role-based buyer, freelancer, and admin workflows.
- Implemented gig packages, search and filters, applications, real-time chat, order delivery, revisions, reviews, withdrawals, and admin moderation.
- Integrated Stripe Connect and PayPal with webhooks, platform commissions, checkout, payout processing, and payment oversight.

**Tech:** Laravel 12, PHP, MySQL, React 19, Inertia.js, TypeScript, Sanctum, Stripe, PayPal, Pusher, ImageKit

### Radius Directory — Multi-Tenant Marketplace SaaS

bikribd.com · Jan 2025 – Present

- Own full-stack architecture for a classified marketplace and directory with listings, memberships, orders, payments, reporting, and account management.
- Built a custom nested drag-and-drop page builder, template builder, menu builder, and 30+ reusable widgets.
- Designed transaction-safe checkout workflows and Redis cache invalidation strategies for high-traffic APIs.

**Tech:** Next.js, React, TypeScript, Node.js, Prisma, PostgreSQL, Redis, REST APIs, Stripe, PayPal, SSLCommerz

### Digital Land Record and Management System (DLRMS)

dlrms.land.gov.bd · Apr 2024 – Dec 2024

- Developed citizen-facing khatian entry and correction features plus administrative processing workflows for nationwide land-record digitization.
- Built React/Next.js interfaces and contributed scalable NestJS APIs handling millions of land records.
- Worked across frontend, backend, Oracle data access, Redis caching, and RabbitMQ-based processing.

**Tech:** React, Next.js, TypeScript, Material UI, NestJS, TypeORM, Oracle, Redis, RabbitMQ
